

Bill Your VoIP Services *in RECORD TIME!*

Start billing VoIP services quicker with **OMNiBill™**

Profitec has worked with several "Out-of-the-Gate" VoIP providers who need to start generating revenues in a hurry. Like a finely tuned athlete requiring high tech training, we can help you accomplish more with limited resources. We can provide hosted solutions which can reduce or eliminate your capital investment. You can even leave the coaching to us. We can offer you a pool of available personnel to support your back office needs which can quickly help you launch your new business allowing you to focus on your sales and marketing strategies.

Profitec and OmniBill provide a solution that works

- Modest start up expenses and low minimums
- Accurate, reliable and cost effective service bureau billing
- Supports traditional voice services as well as new technology services like VoIP, DSL and Broadband
- More than 20 years of experience
- VoIP ready billing solution
- True product bundling and integrated invoicing
- Available as a hosted or on-site OSS

Our goal is to help minimize your risk and maximize your business potential.
